

From Oregon.

The Overland mail from California arrived at Omaha on the 9th Inst. It brings the news of the election of David Logan, Black Republican, to Congress, by fifty-nine majority over his Democratic competitor. Good old democratic, & so is the election by the next term.—*[People's Press.]*

Texas.

News reach us that Gen. Houston has succeeded Governor of Texas, by very large majority. A correspondent from the Cincinnati says: "writing from there, says: 'The triumph of many that Gen. Houston will carry the state by over 20,000. The victory question is the re-opening of negro trade. I am satisfied that over three fourths of the people of this state are against him. He is believed to be the administration candidate against the regular democratic ticket. It should be understood, however, that he claims to be a democrat, and says he is but no American in Texas."

—A special despatch from New Orleans—*[The Courier]—*says that the returns show a small majority for the regular candidates.

Democratic Convention.

The Democratic Convention of Sioux City, Nebraska, on June 1st, 1856, in accordance with the resolutions of the National Committee, selected a delegate to the national convention in the Territorial Capital and "voted in the Territorial Delegates to the National Convention." The motion of H. T. Bramble Edward Smith and W. W. Smith Jr., was carried.

H. T. Bramble offered a resolution, "That the Democracy of Dixon County endorse the Chicago Platform of 1856." This was adopted by the convention.

A motion was made and carried to elect a delegate to the national convention in Chicago, and A. A. Partridge was elected. The motion of H. T. Bramble Edward Smith and W. W. Smith Jr., was carried.

A. A. Partridge offered a resolution, "That the Democracy of Dixon County endorse the Chicago Platform of 1856." This was adopted by the convention.

A motion was made and carried to elect a delegate to the national convention in Chicago, and A. A. Partridge was elected.

The motion of H. T. Bramble a central committee member who was elected, to serve until their names were popularly chosen, consisting of the following persons, S. B. Mikkelland, S. B. Clegg, John McCrory, John Cavenagh, and Edward Smith.

A motion of H. T. Bramble Edward Smith and W. W. Smith Jr., was carried.

Edward Smith, chairman of the central committee.

Territorial Affairs.

The Hon. Joseph Miller returned to this city on Monday of the present week. He had expected to go on the 26th of July, but his wife who has been very ill, taking a relapse, preventing and entirely precluded the possibility of his leaving on that day. For several days her life was despaired of, but was at the time of his departure, we are happy to state improving. In any other event, he would certainly have been present to hold court. In consequence of his absence, it has turned over to the next term.—*[People's Press.]*

MORMON PREPARATION FOR FAMINE.

In the Tabernacle at Salt Lake City, on the 26th ultimo, Elder Orion Hyde spoke of the saving policy of Joseph in storing up the grain of Egypt against the seven years of famine, and argued that, insomuch as a severe famine was foretold to come to us in the present generation, it behoved the Saints to take care of and begin at once to store up their grain.—Notwithstanding this advice, the harvest in the territory promised to be heavy one.

Fever Destroyer.

It frequently happens that persons afflicted with Fever and Ague, Chills and Fever, Intermittent Fever, Bilious Fever, &c., get into a habit of swallowing Quinine, and other disagreeable and dangerous drugs, until they become able to swallow nothing else. This pernicious habit should be stopped in time, and those afflicted have recourse to medicine that will cure instead of kill. Col. Mason of this place, has a medicine that will knock the most violent case of any of the above fevers, higher than the moon, in twenty-four hours, after taking it. We speak from experience, having tested its efficacy on an attack of ague and fever, that caused us to avert during all the changes known to heat and cold, during the space of six hours each day. We took the Fever Destroyer, and as the sun came around, on his usual diurnal patrol, we found ourself right. Tell those afflicted to send to the Col. and obtain a package immediately.
